

Carte à détacher
et à présenter à
votre médecin

card to be detached and
presented to your
doctor

The Delta Network team welcomes you!

Why this letter?

Thanks to the attending physician designated in your insurance contract, you are now affiliated to the Delta Network!

If you have any health concerns, you agree to **always consult/inform your GP first**. You should announce yourself at the practice or at the pharmacy **with the enclosed Delta card**, which informs you that you are a Delta. In case of a consultation with a specialist, your doctor must draw up **an electronic delegation voucher** on the Network's "Delta-data" software. If the specialist or the hospital refers you to another specialist, **you must also inform your doctor** who will issue a new voucher for this follow-up.

Remember! Before visiting a specialist, regardless of the amount of your excess, contact the attending physician listed on your insurance contract.

Health problem

Family doctor
(Issues an electronic delegation
voucher to the specialist)

Specialist/Hospital

Other specialist
Notify attending physician
for new referral délégation

What is the Delta Network?

Founded 30 years ago, Delta is the largest network of general practitioners in French-speaking Switzerland, with 900 doctors practicing in their own offices or in a medical centre. By applying the principle of **"doing everything necessary but only what is necessary"**, there are no unnecessary examinations or superfluous procedures: Delta doctors thus contribute to controlling health costs and for the same services you benefit from a lower premium than the basic premium,

The doctors who are members of the Delta Network have signed **a charter** to promote a sustainable quality health care system for a society that respects people.

Another advantage?

Delta pays 50% of all group prevention courses! Visit our prevention page on the website www.reseau-delta.ch.
